Davina:

I got your voice mail from Friday...sorry for the delay in getting back to you regarding the Wall Street Journal inquiry on the FL Phosphate Project.

I'm on travel this week, but you can reach me at the cell number below. Carol Monell (28719) or Derek Matory (28800) should also be able to answer questions you may have about the project.

I'll be back in the office on Nov. 22.

Thanks,

Brad Jackson
